

CATENIC AG: Corporate Profile

From “cost center“ to service provider! – In numerous organizations, requirements regarding IT, accounting, human resources management, and other administrative core functions have changed substantially: Companies focus on standardization, customer orientation, benchmarking, and especially on recognizable value added to business processes. Above everything else, this objective requires active management based upon full cost and service transparency.

CATENIC AG, founded in 1999 and headquartered in Unterhaching near Munich, Germany, specializes in the financial management of administrative core functions in mid-sized to large enterprises. The company's goal is to empower corporate users to actively control their cross-divisional functions in accordance with business principles.

Especially in SAP environment, Catenic **Anafee™** is the leading standard solution for calculating, accounting, analyzing, and planning shared services, such as IT, Finance & Accounting or HR. Anafee meets the following core requirements:

- introduction of cost and service transparency
- standardized, demand-oriented service catalog
- service calculation & SLA management automation
- usage-based service accounting
- comprehensive, web-based cost reporting
- compliance with industry standards (e.g. ITIL) and regulatory frameworks (e.g. IFRS)
- audit-proof calculation/accounting
- scenario-based service planning

The technological flexibility, conceptual consulting know-how as well as best practice-oriented implementation methodology of Catenic provide extremely short project periods and a rapid go-live.

Across all industries, well-known companies rely on Catenic financial management solutions to efficiently manage their complete IT and shared services delivery and to effectively limit administrative costs. Reference customers are, amongst others: ADAC (German automobile association), AREVA, BOSCH, Commerzbank, Deutsche Telekom, Dr. Oetker, EADS Astrium, EDEKA, EVN (A), gkv-informatik, Lurgi, Otto Versand, Q-Cells, SBB (Swiss railroad operator), Suedzucker, Tognum, and VBS (Swiss Armed Forces).
